Calling all Builders: Getting to the Next Code

- Would you like to start planning and designing to the next code?
- Do you need an update on building code changes?
- Are you questioning what energy efficiency changes you as a builder need to make?

WEDNESDAY, MAY 16th from 11 a.m. – 12 p.m.

What is an Integrated Design Process (IDP)?

How can it help me get to the next building code?

What is the role of an Energy Modeller?

Future code requirements

Advantages and biggest wins for past builder participants

Next steps

Please join our panel of experts on May 16th for our Webinar where we can help you wade through the waters with this interesting and timely session, focused on how the Integrated Design Process (IDP) can assist the builder and what the role of a Certified Energy Advisor is in the process.

- ✓ **Mike Singleton, Sustainable Buildings Canada – Moderator**
- ✓ **Sean Mason, Sean Mason Homes**
- ✓ **Scott Jeffery, Jeffery Homes**
- ✓ **Scott Bullock, Enbridge Gas, Residential Sales Lead**
